

CHOLLERTON CHURCH OF ENGLAND AIDED FIRST SCHOOL

BRITISH VALUES

At Chollerton First School British values are an integral part of our social, moral, spiritual and cultural standards and our Christian values as a Church of England Aided First school.

Throughout their attendance at Chollerton First School, children develop their self-knowledge, self-esteem and self-confidence.

Through planned curricular activities, interventions when needed children are helped to distinguish right from wrong and understand laws which govern England.

Children are encouraged to take responsibility for their behaviour and the day to day functioning of the school by carrying out roles, using initiatives, contributing positively to school, events in our local community, our country and abroad.

Children are taught about the public institutions and services of our country.

Respect is instilled via our Christian values and by developing understanding of other faiths. The children understand people have freedom of choice not only give to them by God to believe, but in other faiths and this is protected by law.

The children in Class 2 are all part of the School Council and understand they can influence activities via a democratic process and that we have rules which protect individual's wellbeing and safety as our laws do.

National and World events are celebrated and learnt about at school with the emphasis being on freedom of choice and combatting discrimination.
